

# SUDEKI

The Combat of Sudeki is unique to an RPG. The combo system appears simple, but when mastered can be extremely powerful. Tal and Buki share the same style of up close and personal melee attacks.

## Melee Character Controls:

|                     |                       |
|---------------------|-----------------------|
| Vertical Attack:    | A                     |
| Horizontal Attack:  | X                     |
| Clear Surroundings: | B                     |
| Block:              | R                     |
| Roll:               | R + Back, Left, Right |

Both of these characters also have a number of combos. You will need to press the attack buttons as they light up in the bottom left hand corner of the screen to successfully link attacks. The juggling combos are extremely powerful; learning to pull these off successfully will lead to many easy battles.
